

CAPABILITY STATEMENT

ENGINUITI Solutions LLC is a technology consulting firm specializing in **systems engineering, software development, and digital transformation** for mission-driven organizations. We help government and commercial clients **design, build, and scale complex systems** by aligning technology, data, and operations to deliver measurable outcomes.

Led by a seasoned Product and Systems Leader with experience supporting **federal missions, defense systems, and enterprise platforms**, ENGINUITI brings both **strategic insight and hands-on execution** to every engagement; from concept through deployment.

CORE COMPETENCIES

Full Stack Software Development: Design and development of scalable, secure, and maintainable applications using modern technologies.

Digital Transformation: Modernization of legacy systems, implementation of cloud-based solutions, & integration of data-driven technologies to improve operational efficiency & decision-making.

Systems Engineering & Integration: Requirements analysis, system design and architecture, verification and validation, integration and testing support.

Product Management & Lifecycle Strategy: Managing the full product lifecycle, including product vision, discovery, roadmaps, OKRs, prioritization, user research, and backlog management in multi-team environments.

Program & Project Management: Planning, coordination, risk management, and execution of complex technical programs in regulated and high-stakes environments.

Agile Delivery & Transformation: Implementation and scaling of Agile frameworks, facilitation of Scrum ceremonies, & coaching cross-functional teams to improve delivery performance.

DIFFERENTIATORS

- ✓ **Founder-Led Expertise:** ENGINUITI Solutions is led by a Product and Systems Leader with direct experience delivering federal, defense, and mission-critical systems, including work supporting naval combat systems and secure intelligence platforms.
- ✓ **Mission-Critical Experience Without Overhead:** Enterprise and defense-level expertise delivered with the agility & responsiveness of a small business.
- ✓ **Full Lifecycle Delivery:** From system concept and architecture to deployment, testing, and sustainment.
- ✓ **Bridge Between Technical & Business Teams:** Proven ability to translate complex technical systems into actionable strategies for stakeholders at all levels.
- ✓ **Agile + Systems Thinking Approach:** Combines structured systems engineering with modern Agile methodologies for faster, more reliable delivery.

COMPANY DATA

ENGINUITI Solutions LLC

CAGE Code: 19MA7, **PSC Code:** R408

UEI: D4PNSLNM26D4

NAICS Codes:

541330: Engineering Services

541611: Administrative Management & General Management Consulting Services

541511: Custom Computer Programming Services

RELEVANT EXPERIENCE (FOUNDER-LED)

- ✓ Led end-to-end delivery of a secure OSINT platform supporting federal and commercial missions, driving product adoption and system scalability.
- ✓ Led systems integration and testing for naval radar and combat systems, developing test procedures and resolving critical system defects in high-risk environments.
- ✓ Served as Subject Matter Expert in requirements validation & traceability, ensuring alignment between system requirements, testing, and delivered functionality across complex programs.
- ✓ Drove Agile transformation across product & engineering teams, improving delivery predictability, collaboration, & execution speed.
- ✓ Provided product strategy and program leadership, shaping roadmaps, managing dependencies, and aligning technical delivery with mission objectives.
